Resources

Private Pesticide Applicator Cards

If you are included in the definition below, federal law states that you must have a Private Pesticide Applicator Certification. This is commonly referred to as a "pesticide card". The card is needed to purchase and apply "Restricted Use" pesticides. However, this federal law technically applies to "General Use" pesticides as well as stated below.

"Persons using pesticides in the production of agricultural crops including but not limited to tobacco, peanuts, cotton, feed grains, soybeans and forage, vegetables, small fruits, tree fruits and nuts, as well as on grasslands and non-crop agricultural lands; the use of pesticides on animals, including but not limited to beef cattle, swine, sheep, horses, goats, poultry, and livestock; and to places on or in which animals are confined."

If you need a private pesticide applicator card, I will be holding two trainings where you can get it. You only have to attend one of the sessions, and they will all be at the Monroe Co. Extension office. Each training will last approximately two hours. The trainings will be on:

- Wednesday, January 18 @ 10:00 am
- Thursday, January 19 @ 6:00 pm

Monroe County Extension Office will be closed
January 16, 2023, for Martin Luther King Jr. day

The WKU Raising Hope team in partnership with the Barren River District Health Department is excited to attend the TriCounty Hay and Straw Auction on January 28, 2023 to provide free tetanus and flu shots and stress screenings for farmers and their family members (18+ years old). Raising Hope is a state-wide coalition of agriculture, education, and healthcare institutions working together to support the safety and physical and mental health of farmers and their families. For more info on Raising Hope visit: <https://www.raisinghopeky.com/>.
